

Problem 2 (25 points). Below is given an inscribed lead tablet discovered in 1994 in Alicante, Spain. It shows a text in the Iberian language, written in the Levantine system:

Below are given, in random order, the Latin transcriptions of 13 of the words that appear on the tablet. One of the words contains a mistake!

arbais, aurelen, bantaškalir, bantubailkunmi, belštaukui, beřenultiteš, iumabeleš, kitei, kuteńnanišil, šebifin, sonai, taubaštetaš, toroš

(continued on next page)

- (a) Write the correct transcription of the word containing the mistake in Latin script.
(b) Here are 4 more words which appear on the tablet. The transcription is incomplete. The gaps are marked by ..., which may mark one or more letters.

d. ...uki...ré

e. keke...r...ban

f. ...n...le...s

g. n...i

Write the full transcription of these words.

- (c) The number 31 appears somewhere on the tablet. Below are given some more numerals in the same notation system:

a. 

b. 

c. 

Write them using Arabic numerals.

- (d) Write the Latin transcription of the remaining words, in the order in which they appear on the tablet.

⚠ Iberian is an extinct unclassified language which used to be spoken in the regions of present-day Spain and France around the 1st c. AD.

ṛ, ś, and ṃ are consonants similar to r, s, and m, respectively.
