

## Problem 2: Aksara Sunda Kuna

### Solution:

- The script is written from Left to Right.
- The script consists of symbols for consonants and for free vowels. The consonants each have an inherent vowel which can be changed to another vowel or muted by means of diacritics or other modifications.
- Explain at least a few from the following lists.

#### Consonants:

|                                                                                   |                                                                                   |                                                                                   |                                                                                   |                                                                                   |                                                                                     |                                                                                     |                                                                                     |                                                                                     |
