Pittsburgh (United States of America), July 24–31, 2011
Individual Contest Solutions

Problem #1. The Menominee verb forms have the following structure:

				intransitive verb:																	
ne- ke- ——	I we ₁₊₂ he	kaw	down	-āhpe	laughing	-m	I														
		ket	out	-ānāhkæ	digging	-q	we ₁₊₂														
		kēs̄k	through	-eqta	——	-w	he														
		pahk	off	-ohnæ	walking																
		pāhk	open	transitive verb: <table><tr><td>-ah</td><td>by tool</td><td>-an</td><td>I</td></tr><tr><td>-aht</td><td>by mouth</td><td>-æq</td><td>we₁₊₂</td></tr><tr><td>-en</td><td>by hand</td><td>-am</td><td>he</td></tr><tr><td>-es</td><td>cutting</td><td colspan="2"></td></tr></table>				-ah	by tool	-an	I	-aht	by mouth	-æq	we ₁₊₂	-en	by hand	-am	he	-es	cutting
-ah	by tool	-an	I																		
-aht	by mouth	-æq	we ₁₊₂																		
-en	by hand	-am	he																		
-es	cutting																				
pīt	hither																				
taw	pierce																				
wack	around																				
wāp	begin																				

If both first vowels in the word are short, the second becomes long ($e > \bar{æ}$).

- (a)
- **kekēs̄kahæq**: we₁₊₂ chop it through, break it through by tool
 - **nepāhkenan**:
 - I open, uncover it by hand ($\sqrt{\text{pāhk}}$),
 - I break it off, tear it off by hand ($\sqrt{\text{pahk}}$)
 - **wāpāhpew**: he begins laughing
- (b)
- I begin to eat it: **newāpahtan**
 - we₁₊₂ lay it flat by hand: **kekāwenæq**
 - he digs a hole: **tawānāhkæw**
 - he walks out: **ketōhnæw**
