

Problem 5. The word forms in the problem consist of a root and up to three suffixes. Each suffix may cause the elision of the preceding vowel:

	possessor	case	
oral suffixes	-p''a -sa	-p''a -t''a	-psa -txi
	always consume the vowel	consume the vowel if it belongs to another suffix, but leave it if it belongs to the root	
nasal suffixes	-nha, -ma	-na	
	consume the vowel if they keep theirs, but leave it if they give up theirs		

Answers:

- (a) 1. **utnhantxi** — *is it in my house?*
2. **yapp'psa** — *his field too*
3. **yapup'psa** — *through the field too*
- (b) 4. *our₁₊₂ cliff* — **qaqsa**
5. *in your corner* — **chushumna**
6. *in your corner too* — **chushmanpsa**
7. *from your corner too* — **chushumt''psa**
8. *is it from the cave?* — **aq''it''txi**
9. *is it the house?* — **utatxi**
