

Sixth Hong Kong Linguistics Olympiad

March 10th, 2024

Solutions

Problem 1.

- The "extended" form serves different purposes in Tiene:
 - Applicative (APPL): *do something for*;
 - Reversive (REV): creates a verb with reversed meaning;
 - Stative (STAT): equivalent with the passive form of the verb (*be done*);
 - Causative (CAUS): *make someone / something do*;
- Notations used:
 - C_{nc} = non-coronal consonants (**b, m, k, ŋ**)
 - C_c = coronal consonants (**t, n, l, s**)
 - N = nasal consonants (**m, n, ŋ**)

- Verb forms and vowel structure:

	Basic	Extended	V_1	V_2	V_3	V_4
2 syllables	CV_1CV_2	CV_1CV_3	i, e, o, u	a	ɛ	e
3 syllables		$CV_1CV_4CV_3$	a, ɛ, ɔ		V_1	

- Choice of consonants:

		Basic form	Extended		
			APPL/REV	STAT	CAUS
$C_2 = C_c$	$C_2 = N$	C_1VC_2V	C_1VC_2V	$C_1VC_2V\mathbf{\eta}V$	C_1VsV
	$C_2 \neq N$			$C_1VC_2V\mathbf{k}V$	
$C_2 = C_{nc}$	$C_2 = N$		$C_1V\mathbf{n}VC_2V$		$C_1VsV\mathbf{b}V$
	$C_2 \neq N$		$C_1V\mathbf{l}VC_2V$		$C_1VsV\mathbf{C}_2V$

- (a) 1. **yonemɛ** 2. **pinɛ** 3. **susebɛ** 4. **kosɛ**

- (b) **kasa** = *fight for* (APPL), *defend* (REV), *make fight* (CAUS)
tinemɛ = *dig for* (APPL), *fill in* (REV), *be dug* (STAT)

- (c) 5. **nalaka** 7. **bosɛ** 9. **kasaba** 11. **tonemɛ**
 6. **bola, boka** 8. **tima** 10. **soseke** 12. **sɔnɔ**
