

Problem No. 3 (20 Points):

Solution:

The system in Bariai is as follows:

ede – 1	sangaul – 10
rua – 2	sangalima – 50
tol – 3	buno – 100
pange – 4	
lima – 5	

Numerals from 6 to 9: lima ga X, where X is the number of units over 5;

Numerals from 11 to 19: sangaul ga X, where X is the number of units;

Numerals from 20 to 49: sangaul X igegea Y, where X is the number of tens and Y is the number of units;

Numerals from 50 to 100: sangalima sangaul X igegea Y, where X is the number of tens over 50 and Y is the number of units.

Assignment 1:

- 1 – ede
- 4 – pange
- 9 – lima ga pange
- 16 – sangaul igegea lima ga ede
- 25 – sangaul rua igegea lima
- 36 – sangaul tol igegea lima ga ede
- 49 – sangaul pange igegea lima ga pange
- 64 – sangalima sangaul ede igegea pange
- 81 – sangalima sangaul tol igegea ede
- 100 – buno

Assignment 2:

$$43 + 14 = 57$$

Assignment 3:

- 62 – sangalima sangaul ede igegea rua
 - 88 – sangalima sangaul tol igegea lima ga tol
-
