

Problem 2: Stressed Manobo

Given below are some words in Sarangani Manobo². Each word has the location of stress (i.e. emphasis) marked with ' at the beginning of the stressed syllable.

'baso, de'itek, mene'noo, me'ama, be'gas, le'kat, 'otaw,
ete'bay, binele'san, 'deget, 'benget, mi'neles, 'ikan, 'doen

Assignment 1: (10 marks)

Mark the stress in the following Sarangani Manobo words with ' at the beginning of the stressed syllable:

- | | |
|--------------|---------------|
| (a) mengabat | (e) tadon |
| (b) migbasa | (f) belegkong |
| (c) iselem | (g) mola |
| (d) benal | (h) medaet |

Assignment 2: (5 marks)

Given a new word in Sarangani Manobo, how would you identify the syllables in the word? Once you have identified the syllables, how would you determine which syllable is stressed?

– Saujas Vaduguru
