

Problem 1. Nancowry Answers

1.1	a. <i>to tie</i>	j. heh
	b. <i>something that is tied</i>	k. tumko?
	c. <i>to thicken (something)</i>	l. ʔɛh
	d. <i>to hang, (be) hanging</i>	m. kXtal
	e. <i>to cause (something) to arrive</i>	n. pumlo?a
	f. topa	o. cinluak
	g. ʔanãŋ	p. kinsu
	h. tanop	q. sumput
	i. hateh	

For **Q1.2** write the corresponding letter under each item.

1.	2.	3.	4.
q	s	t	r

Q 1.1 Max 17. 1 pt for correct translation. For a – e, allow any reasonable English translation.

Q 1.2 Max 4. 4 pts if all correct, 2 pts if three correct, 1 pt if two correct.

Problem 1. Nancowry Commentary

There are three derivations: the causative (CAUS), which turns an adjective or verb into a verb meaning *to make / cause X*; the instrumental nominaliser (INSTR), which turns a verb into a noun meaning *a thing used to X*; and the object nominaliser (OBJ), which turns a transitive verb into a noun meaning *a thing that is Xed*.

The marking chosen depends on the number of syllables in the base.

	1 syllable	>1 syllable
CAUS	ha-	<um>
INSTR	<an>	<in>
OBJ	-a	-a

All infixes appear after the initial consonant. For **<um>** and **<in>**, the infix replaces the following vowel.

Problem 2. Sakata Answers

2.1	13. <i>The dogs saw the bad goat.</i>
	14. <i>The children wanted to buy a big cow.</i>
	15. <i>The little man read the good books.</i>
	16. <i>Who killed the woman's snakes?</i>
2.2	17. Ngombe ijo mva inini. [3]
	18. Munde nejao ola mape. [3]
	19. Nə achunga kena kekikə ke bang? [4]
	20. Beto be kebil betang mekan menini. [4]

Q 2.1 Max 8. For each sentence, award 2 pts if correct; 1 pt with one mistake (e.g., wrong word, wrong singular/plural, missing question, ...)

Q 2.2 Max 14. In each sentence: 3 or 4 pts if correct (see above). Deduct 1 pt per mistake, to a minimum of 0.

Q 2.3 Max 33. 6 pts for describing the syntax; 14 pts for describing the agreement system; 11 pts for listing noun class prefixes; 2 pts for describing any irregularities.

Problem 2. Sakata Commentary

1. Syntax:

- Subject – Verb – [Infinitive] – Object
 - Verbs take **o-** in the infinitive, or an agreement prefix for their subject (see below).
- [**o** = *to*] – Noun – Adjective – [LNK – Possessor]
 - Adjectives take an agreement prefix.
 - In possessive constructions, LNK = agreement prefix for the possessed noun, as a free-standing linking word.

2. Noun class: all nouns begin with a noun class prefix.

	Singular		Plural	
	Noun prefix	Agreement prefix	Noun prefix	Agreement prefix
<i>woman, man, child, white man ...</i>	mu-	ne-	ba-	ba-
<i>book, ...</i>	mo-	mo-	me-	me-
<i>duck, wing, ...</i>	i-	le-	ma-	ma-
<i>field, thing, snake, ...</i>	ke-	ke-	be-	be-
<i>goat, dog, chicken, cow, ...</i>	n-	ne-	n-	i-
<i>peanut, ...</i>	le-	le-	n-	i-
nə = <i>who</i>		a-		

Note that here, all noun classes are either singular classes or plural classes. This is not true in general, although these represent the most common singular–plural pairs.

n-va > **mva** and **ba-nkar** > **banka**.

All data in this problem comes from the author's own fieldwork in Bosobe.

Problem 3. Kickapoo Answers

3.1	a. óqòðhóò	g. óhóóqóóhòòqóò
	b. òðhóóqóqòqóò	h. óqóóhòhóò
	c. óqòhóò	i. òhòhòòhóòhóò
	d. óóqóqòðhóò	j. óhòqòhóqòhóò
	e. óòqóóqóóhóòhóò	k. óhóqóhóqòhóò
	f. òhóòhóóqòhóqóòhóò	l. óqòòqòòhóhóòqóò
3.2	òòhóóhòqóò	

Q 3.1 Max 24. 2 pts for each correct form; 1 pt with one mistake.

Q 3.2 Max 2. 2 pts for the correct form; 1 pt with one mistake.

Q 3.3 Max 26. 8 for consonants; 8 for accented vowels; 10 for unaccented vowels.

Problem 3. Kickapoo Commentary

The following provides a simplified analysis combining both the tonal system of Kickapoo, and the system for converting spoken Kickapoo into the whistled form. Here V stands for a vowel, C for a consonant cluster, # for a word boundary.

1. $V\# \rightarrow \acute{o}\grave{o}$;
2. $\acute{V}(V) \rightarrow \acute{o}(\acute{o})$ if antepenultimate; $\acute{V}V \rightarrow \acute{o}\grave{o}$ otherwise;
3. $V \rightarrow \grave{o}$ after final accented syllable;
4. $V(V) \rightarrow \grave{o}(\grave{o})$ before $\{s, \theta, h\}$;
5. Else, $V \rightarrow \acute{o}$;
6. $\#C \rightarrow \emptyset$;
7. $C \rightarrow q$ if C contains $\{p, t, k\}$; else $C \rightarrow h$.

Problem 4. Nganasan AnswersFor **Q4.1** write the corresponding letter under each item.

1.	2.	3.	4.	5.	6.	7.	8.	9.	10.	11.	12.	13.	14.	15.
h	j	n	k	f	g	c	i	d	e	o	b	a	l	m

4.2	<i>tents off/for idols</i>
------------	----------------------------

4.3	16. <i>bags</i>	17. <i>idol</i>	18. <i>ears</i>
------------	-----------------	-----------------	-----------------

4.4	19. <i>ɲəntu?</i>	20. <i>tuu?</i>	21. <i>basa</i>
------------	-------------------	-----------------	-----------------

4.5	<i>huaaʔtuj. [See below]</i>
------------	------------------------------

Q 4.1 Max 15. 1 pt for each correct correspondence.**Q 4.2** Max 2. 2 pts for a correct answer. Insist on correct pluralisation, but otherwise allow any reasonable answer.**Q 4.3** Max 6. 2 pts for each correct answer. For 16, accept *cases, places*, etc.**Q 4.4** Max 6. 2 pts for each correct answer.**Q 4.5** Max 3. 3 pts for any answer that begins **huaaʔt-**. Ignore the end of the word.

Problem 4. Nganasan Commentary

Compound order is MODIFIER – HEAD.

Each noun has three possible root forms (S_1 , S_2 , S_3) which often coincide, or may differ by consonant gradation (here, only between **s** > **d'**, **t** > **ḑ**, **nd** > **nt**, and **j** > $\emptyset$) or vowel mutation/lengthening. Note that it is not really possible from the data given to conclude that the MODIFIER-PLURAL form is also S_3 , but it is also not required for the tasks.

	SG	PL
HEAD	S_1	S_2 –?
MODIFIER	S_3	S_3 –?

The following words appear in multiple forms.

	S_1	S_2	S_3
<i>ear</i>	kou		
<i>idol</i>	kojkə		kojkü
<i>metal</i>	basa	bad'a	
<i>hand</i>	d'ütü	d'üḑü	
<i>tooth</i>	čimi		
<i>boat</i>	ḡənduj	ḡəntu	
<i>fire</i>	tuj	tuu

Problem 5. Kavalan Answers

5.1	1. <i><u>His monkey</u> is sleeping / sleeps.</i>
	2. <i>Does the woman burn <u>Taipei</u>?</i>
	3. <i>He buys my digging chicken with <u>our money</u>.</i>
	4. <i><u>We</u> begin to cut the small sour orange in that village.</i>
5.2	5. kitutiku ni [2]
	6. ipiran + na qanay sunisna + ya qasirray wasusu [4]
	7. taquzti + ya tiapzangawta + ta tarrebciaan + ni [4]
	8. titataktati + tu rasung + ya sarriqku [4]
	9. tmaytatiisu + tu rrutungcia + ta rasungan [4]

Q 5.1 Max 12. 3 pts if correct; 2 pts with one mistake; 1 pt if either all noun phrases are correct or the verb phrase is correct, and the correct syntactic argument is focused (even if the translation of the argument is incorrect). Question marking is considered part of the verb phrase.

Q 5.2 Max 18. 1 pt for each noun phrase in the correct order; 2 pts for the verb phrase (including final **ni**), or 1 pt with one mistake.

Q 5.3 Max 30. 6 for describing the syntax; 11 for describing the structure of noun phrases; 13 for describing the structure of verbs.

Problem 5. Kavalan Commentary

UnF = Unfocused, S = Subject, O = Object, V = Verb. Note that instrumental clauses (*with X*) only appear focused in this problem, and locatives only appear unfocused.

1. V + [na] UnF.S + [tu] UnF.O + [ya] Focus + [ta] Locative-[an] + [ni = Question]
2. Art + [Adj-[ay]] + [Noun-[Person]-[cia = that]] NB: Any verb can be used as an adjective.
3. Intransitive verbs focus the only argument. Transitive verbs mark the focus:
 - **-m-** (inserted after the first consonant): subject focus;
 - **-an** (suffix): object focus;
 - **ti-** (prefix): instrumental focus.
4. Person/number markers are attached to the end of the verb (to mark subject) or noun (to mark possession).
 - **-ku** = I, **-su** = you, **-na** = he, **-ta** = we;
 - If the subject is focused, these are preceded by **-i-** and its position is moved after the inceptive marker*.
5. Inceptive marker: **-ti** (*begin to*). This appears after the focus and unfocused person markers, but before the focused person markers.
